Location: Tirupur, Tamilnadu

Technical Skills

- HTML&CSS
- Java &JavaScript
- WordPress
- Excel &MySQL
- Google Analytics

Soft Skills

- Teamwork
- Collaboration
- Communication
- Analytical Thinking
- Adaptability
- Time Management

Certifications

- Principles of Generative AI
- Networking Essentials – CISCO
- Basics of computer networking
- Fundamentals of Visualization with Tableau

Objective

- Interested to secure a challenging position in a reputable organization to expand learning and knowledge. Seeking an opportunity to apply my skills.

Education

- Under Graduate in KPR Institute of Engineering and Technology - B.E. CSE (2023-2026).
- Diploma- Kongu Vellalar Polytechnic College- Diploma in Mechanical Engineering (2021-2023)
- SSLC- Kongu Matriculation School (2020)

Projects

- [Meme Generator App](#) – Built a responsive web application using React.js and Vite enabling users to create custom memes with real-time preview and dynamic text editing, improving user engagement and interactive content creation.
- [AI Resume Analyzer Web Application](#) – Built a web application to parse and analyze resumes, extract structured data, and generate AI-driven feedback and scoring, enhancing resume quality and job readiness.
- [Memory Game Web Application](#) – Built a dynamic web-based game implementing card matching algorithms, real-time game state management, and difficulty modes, improving user interaction and logical gameplay experience.

Experience

CISCO | Virtual Internship

- During my internship focused on networking concepts, design, and troubleshooting and developed solid understanding of network infrastructure and IT practices.

CodeSoft | Machine Learning Intern

- At CodSoft, Built and deployed ML models using Python and libraries like scikit-learn and worked on real-world datasets, gained hands-on exposure to industry workflows.
