

SATHISH KUMAR B

Java Full Stack Developer | Spring Boot | React.js

Tiruppur, Tamil Nadu, India | 8678941800 | sathishsince2004@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Recent Computer Science graduate with a solid foundation in Full Stack Java development. Focused on building complete, end-to-end applications — translating ideas into functional, real-world software rather than isolated exercises. 6+ projects built and shipped, code on GitHub. Fresher, immediate joiner, open to relocation.

SKILLS

Backend: Java, Spring Boot, Hibernate, Spring Data JPA, REST APIs

Frontend: React.js, JavaScript, HTML5, CSS3, Axios, Material-UI

Database: MySQL, PostgreSQL

Tools: Git, GitHub, Maven, IntelliJ IDEA, Eclipse

Other: Object-Oriented Programming, Data Structures & Algorithms, Problem Solving

EXPERIENCE

Machine Learning Intern — CodSoft Internships

Jun 2024 – Jul 2024

Remote

- Completed a 4-week virtual internship in Machine Learning, building and training models for real-world style tasks.
- Worked through the full ML workflow — data preprocessing, model training, and evaluation — using Python.

AICTE Virtual Intern — Cisco Networking Academy

May 2024 – Jul 2024

Remote

- Completed Cisco's AICTE Virtual Internship Program in partnership with AICTE, Ministry of Education, and Skill India.
- Completed coursework in Introduction to Packet Tracer and Networking Essentials — covering network communication, IPv4/IPv6 addressing, DHCP, LAN setup, wireless router configuration, and basic network security.

PROJECTS

Job Application Portal — Full Stack

Java, Spring Boot, PostgreSQL, Spring Data JPA, React.js, Material-UI, Axios

- Built a full-stack job portal with a Spring Boot REST API backend and React.js frontend, supporting complete CRUD operations and keyword-based job search.
- Implemented a layered architecture (Controller → Service → Repository) for maintainable, scalable backend design.

HyperTuneML — Interactive ML Platform

Python, Streamlit, Machine Learning

- Built an interactive ML platform where users select from 9 datasets, train classification and regression models (SVM, Random Forest, Logistic Regression, and others), and tune hyperparameters in real time.
- Visualized model results through correlation heatmaps and PCA plots — no coding required by the end user.

AI Resume Analyzer

React, TypeScript, AI Integration, PDF Processing, Tailwind CSS

- Built a web app that helps job seekers evaluate and improve resumes using AI-powered feedback based on an uploaded resume and target job description.
- Delivered ATS compatibility scoring, resume quality assessment, and personalized improvement suggestions.

Additional projects: Meme Generator (React, Express.js), Memory Game (React.js), iPhone 15 Pro Web Clone (React Three Fiber, GSAP) — code and live demos on GitHub.

EDUCATION

KPR Institute of Engineering and Technology

2023 – 2026

Bachelor of Engineering (BE), Computer Science and Engineering

Konghu Velalar Polytechnic College, India

2020 – 2023

Diploma, Mechanical Engineering

Kongu Matriculation School

2019 – 2020

SSLC

CERTIFICATIONS & HONORS

- Principal of Generative AI Certification — Infosys Springboard (Jun 2025)
- Fundamentals of Visualization with Tableau — University of California, Davis (Nov 2023)
- Java (Basic) — HackerRank (Nov 2023)
- Tech Blast — 2nd Place, Code War Event, KPR College of Arts Science and Research (Feb 2024)
